- ◆ Available for all Iridium 9500, 9505, 9505A, and 9555 handheld satellite phones; for both new and existing customers.
- ◆ Plans are available at several affordable levels, to fit the needs of any customer.
- ◆ Choose to pay 1 month at a time, a full 12 months in advance, or a pre-pay option – with the total number of minutes available for use at any time during the paid period.
- ◆ If you own a number of handsets or have higher voice / data requirements, contact WSC for a custom quote.
- ◆ All prices are in US\$ unless stated otherwise.

	“ANZ”	“CREW CALLING”	“GLOBAL”	“PRE-PAY”
<b>What You Pay</b>	\$27/month	\$25.50/month	\$43.00/month	-
<b>Voice/Data (per min)</b>	\$0.81 (in zone) \$2.08 (out zone)	\$1.50	\$1.50	\$1.50
<b>SMS</b>	\$0.50	\$0.50	\$0.50	\$0.50
<b>Activation Fee</b>	\$50.00	\$50.00	\$50.00	-
<b>Payment Type</b>	Postpay	Postpay and/or Scratch Cards	Postpay	Pre-Pay*

*Note: Rates on all packages are subject to change without prior notice. Allowance can be any mix of voice to fixed or cell phones, IP data, or SMS text messages.*

*\* Pre-Pay has a \$37.5 monthly validity fee built into the ‘top-up’ purchase amount.*

### WSC ANZ Plan

#### In / Out Zone Definition

This call plan offers discounted prices for Iridium calls that originate and terminate within Australia and New Zealand. Low call-cost territory extends up to 12 nautical miles from the main land mass of NZ and 200 nautical miles from Australia.

#### Best suited for:

Our most popular plan due to having the lowest monthly access fee and the lowest *in zone* voice/data rate – suited for all disaster recovery teams, as an emergency back-up, and for anyone whose majority of calls will originate and terminate within AUS/NZ.

#### Two Stage Dialling Available

Two-stage Dialling is a way to reduce costs when calling from NZ Land/PSTN to an Iridium phone; by calling via the UK or USA. The Iridium phone owner pays satellite portion of call.

### WSC CREW CALLING Plan

#### Multi user Service

The Iridium Crew Calling Service is based on Iridium prepaid scratch cards that have been optimised for multi-user requirements via *scratch cards*. With one SIM card provisioned for Crew Calling, both postpaid and prepaid services can be supported.

#### Best suited for:

Different access codes are used to distinguish prepaid from postpaid calls. The owner dials 698 + phone number + optional PIN and their call charges will be on their normal invoice. Other users purchase scratch cards then dial 2888 + phone number + PIN.

#### Two Stage Dialling Available

Two-stage Dialling is a way to reduce costs when calling from NZ Land/PSTN to an Iridium phone; by calling via the UK or USA. The Iridium phone owner pays satellite portion of call.

## WSC GLOBAL Plan

### A Plan to Fit All

Our simplest and easiest plan. Dial the number you wish to call and become connected, simple! Avoid pre-dialing numbers (Crew Calling), exhausting your balance (Pre-Pay), or expensive global roaming charges (ANZAC).

### Best suited for:

International travellers who want a simple to use, "dial-and-operate"<sup>TM</sup> satellite phone when and where the need arises. Additionally, perfect for international travel and tourism where making calls is a certainty.

### Two Stage Dialling Available

Two-stage Dialling is a way to reduce costs when calling from NZ Land/PSTN to an Iridium phone; by calling via the UK or USA. The Iridium phone owner pays satellite portion of call.

## WSC PRE-PAY Plan

### A Flexible Difference

Iridium has a variety of Pre-Pay services, with the airtime remaining valid for differing lengths of time depending on the scheme. Airtime is sold by way of "E-Vouchers" applied to the pre-pay SIM card in the phone.

### Best suited for:

No activation or recharge fees are charged. Recharges can be ordered by phone or email. Schemes available:

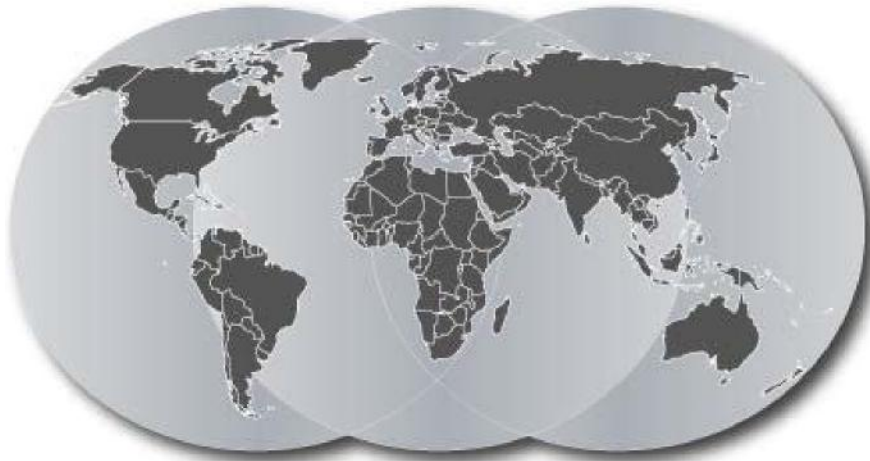

- 75 minute E Voucher valid for 1 month
- 50 minutes top up no additional validity
- 1 Month validity (no additional minutes)
- 500 minute E Voucher valid for 12 months
- 3000 & 5000 minute E Vouchers valid for 24

months

### Two Stage Dialling Credit Dependent

Two-stage Dialling is a way to reduce costs when calling from NZ Land/PSTN to an Iridium phone; by calling via the UK or USA. The Iridium phone owner pays satellite portion of call and as such, will only be connected if the Phone user has a positive balance.

## WSC Iridium Satellite Coverage Map

*This Iridium system is the only communications system providing true **GLOBAL** communications coverage including oceans and all land areas, including the Poles. The Iridium system blankets the Earth, connecting global satellite coverage with local ground-based wireless services.*

## Why Choose WSC and Iridium?

- The most affordable rates and plans, and best packages available, custom plans and bulk order discounts available
- Iridium has the most unrivalled, reliable, truly global mobile voice and data satellite communications network available, covering every square inch of the planet.
- 2-stage dialling fixed-to-mobile voice service lets you avoid expensive connect charges and makes calling an Iridium Phone from any land line or cell phone affordable
- Compact, light, and easy to use but with industrial-grade ruggedness
