

WSC Case Study

2011 Round North Island Two Handed Race

February 2011

New Zealand's premier two handed yachting event starts Saturday February 19 2011

Wright Satellite Connections (WSC) is proud to have provided the 2011 Round North Island Two Handed Race with satellite communication & safety equipment.

Caro Vita competed in the Nelson Regatta a couple of weeks ago and finished 3rd in the Cruising Division. The feedback from organisers and competitors on the performance and appearance of the yacht, especially the banners with the sponsor's logos, was very positive.

The RNI race will start Saturday, 19th February 2011 at 14.00 h in Auckland. The first stopover will be in Mangonui, north of the Bay of Islands. Then they will race around North Cape and down the west coast to Wellington, their second stopover.

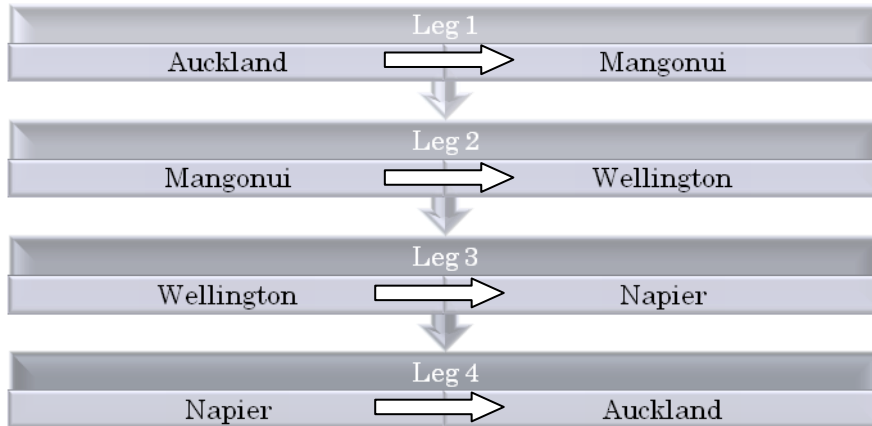

Wright Satellite Connections
8-10 Fitzherbert St, Petone
